Discussion of potential members of the committee

Committee discussed potential replacements for Richard and Meina, and as per majority vote, the Committee will invite David Solow-Cordero and Christine Brideau. The educational background of both potentials will provide the input that the committee needs with regard to future course ideas as well as helping to draw the academic community more to the SBS educational programs. If they turn down the invitation, the committee will return to the list to continue its search (original list can be found in the minutes from August 15th).

Short Course directions

Christine Giordano shared with the committee that Carol Homon has agreed to chair the short courses for the next year, and is willing to work with the committee to determine the best direction for the courses as well as to use their input on topics, titles and speakers. This will help keep the courses from intersecting as well as keeping the traffic to the courses on an increase.
